Important Information

Past performance has been based on prices that include simulated values. All performances are inclusive of any net reinvested income and exclusive of any reinvested rebates. Performance figures and yields are as at 28/02/2021. A minority of funds also feature a performance related fee which is not shown here. Please refer to your Funds List for further information. Source: FE. The value of investments and the income from them can fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Past performance is not a guide to the future.

Investment Objective

The Fund aims to produce a combination of income and capital growth.

The historic volatility is then translated to the fund risk level which is a whole number ranging from 1 (least risky) to 10 (most risky).
