#### Morningstar Analyst Rating

Bronze

#### Rayner Spencer Mills Rating

Rated

(See footnote for ratings information)

\* Fund manager data for fixed interest funds may not identify yield as running or redemption yield. Old Mutual Wealth Ltd and Old Mutual Wealth Life & Pensions Ltd assume these are redemption yields, as their provision is an FCA regulatory requirement.

#### Important Information

Past performance has been based on prices that include simulated values. All performances are inclusive of any net reinvested income and exclusive of any reinvested rebates. Performance figures and yields are as at 28/02/2018. A minority of funds also feature a performance related fee which is not shown here. Please refer to your Funds List for further information. Source: FE. The value of investments and the income from them can fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Past performance is not a guide to the future.

### Investment Objective

The fund aims to achieve a rising income combined with capital growth from a wide range of investments. The fund will mainly invest in global equities but may have exposures to fixed interest securities. We will not be restricted in our choice of investments, regardless of size of the company, the industry it trades in or the geographical split of the portfolio.

### Old Mutual Wealth Risk Evaluator as at 28/02/2018

Over 1 year	1	2	3	4	5	6	7	8	9	10
Over 3 year	1	2	3	4	5	6	7	8	9	10
Over 5 year	1	2	3	4	5	6	7	8	9	10

The fund risk score is based on historic volatility, as measured by standard deviation of returns, of the fund over the indicated time period. The historic volatility is then translated to the fund risk level which is a whole number ranging from 1 (least risky) to 10 (most risky). Fund risk scores provide a retrospective view of a fund's volatility, which may vary widely over different time periods, and are not necessarily indicative of a fund's future volatility.
