Rayner Spencer Mills Rating

-

(See footnote for ratings information)

* Fund manager data for fixed interest funds may not identify yield as running or redemption yield. Old Mutual Wealth Ltd and Old Mutual Wealth Life & Pensions Ltd assume these are redemption yields, as their provision is an FCA regulatory requirement.

Important Information

All performances are inclusive of any net reinvested income and exclusive of any reinvested rebates. Performance figures and yields are as at 28/02/2021. A minority of funds also feature a performance related fee which is not shown here. Please refer to your Funds List for further information. Source: FE. The value of investments and the income from them can fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. Past performance is not a guide to the future.

Investment Objective

To generate income and some growth over the long term (5 years or more) by investing all or substantially all of its capital in the Standard Life Investments UK Real Estate Fund. To the extent the fund is not fully invested it will hold its remaining assets in money-market instruments including cash. The returns of this fund are not expected to be materially different than the returns of Standard Life Investments UK Real Estate Fund. The objective of the Standard Life Investments UK Real Estate Fund is to generate income and some growth over the long term (5 years or more) by investing in UK commercial property. It is intended that the fund will be a PAIF at all times and, as such, its investment objective is to carry on property investment business and to manage cash raised for investment in the property investment business.

Old Mutual Wealth Risk Evaluator as at 28/02/2021

Over 1 year

Over 3 year

Over 5 year

No Fund Risk Number Available

The fund risk score is based on historic volatility, as measured by standard deviation of returns, of the fund over the indicated time period. The historic volatility is then translated to the fund risk level which is a whole number ranging from 1 (least risky) to 10 (most risky). Fund risk scores provide a retrospective view of a fund's volatility, which may vary widely over different time periods, and are not necessarily indicative of a fund's future volatility.
